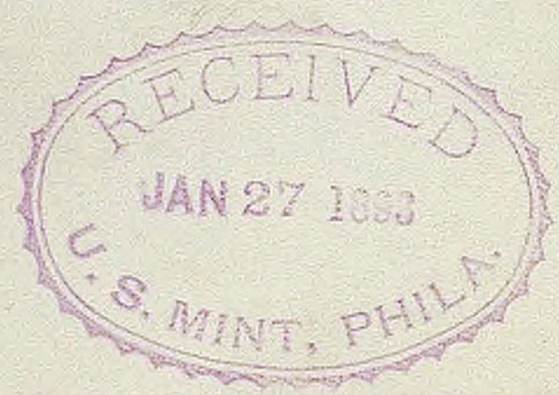
Offers to loan certain
Coins to Cabinet-



To
Supt. R. E. Preston

Dear Sir

While I do not know the
rules under which the Coin Cabinet is
governed, it occurs to me that several
Coins which I have are of such
interest as to merit a place in it-
for Example, the Lord Baltimore penny-
Also 6d. Erra, the Bermuda Hog Pieces
which are not already in the Cabinet, &
possibly one or two others - While
I would be very glad to lend them
to the Cabinet for such length of time
as you see fit, I would like to have
such form of receipt for them as
would enable me to obtain them
when the stipulated time (or after the

Copies of a stated Time) had passed—
Should you desire these pieces in
this way, will you kindly advise
me at your convenience, & oblige

Yours very truly

[Abstract:] Offers to loan certain coins to cabinet.

To the Supt. U.S. Mint

Dear Sir

While I do not know the rules under which the coin cabinet is governed, it seems to me that several coins which I have are of such interest as to submit a piece in it for example. Are Lord Baltimore penny – ditto 6d. Error, the Bermuda 16 oz piece, which are not already in the cabinet, & possibly one or two others. While I would be very glad to lend these to the cabinet for such length of time as you see fit. I would like to have such form of receipt for them as would enable one to obtain these when the stipulated time (or after the lapse of a stated time) had passed. Would you desire these pieces in this way, will you kindly advise me at your convenience, & oblige.

Yours very truly,
